

Never bored again thanks to our play value

“Parents want to leave their children knowing that they are in safe hands, that they are in a secure environment, that they are well taken care of, and that they are having a great time. That they can be themselves, learn, and develop. And that is exactly what we strive to do when we design and produce our play concepts. Something we have been doing for many years and for many day care centres.”

The power of playing

This is what we see at our clients all over the world every day. Our play concepts are accessible, educational, but most of all great fun. We offer single modules, extensive playgrounds, and everything in between. We guarantee endless and universal fun in playing. Furthermore, our products also have an educational value. We like to challenge children of all ages and we stimulate them to move. Designs based on the minds of children, for children.

Safety is our number one priority

Especially when it concerns playing children. That is why we produce all products in our factory so we can guarantee the safety of our products at all times. They are also SGS certified according to the EN-71 standard and, therefore, guaranteed safe and durable.

Our full-service philosophy

This means that we take care of everything. You only need to choose which play concept best matches your wishes. We do the rest. Our full-service philosophy translates into:

- extensive advice
- choice from our collections
- or: a custom design
- complete installation and maintenance
- broad warranty

We know exactly what children want

And what child day care centres need, because we have been working together with large and small day care centres in the Netherlands and abroad for many years. So we know what works. Would you also like to know more about the power of playing? We love to offer our advice!

DAY CARE

Hours of playing and fun, every single day

IKC designs and manufactures play concepts for child day care centres. Safe, durable, for every budget and meeting all wishes and requirements.

“We asked IKC to bring the experience of the great outdoors into our facility. We’re delighted with the result they’ve definitely succeeded!”

Sjoerd Siemerink
