# A suitable play area for every space

## WAITING BECOMES CHILD'S PLAY

It will be pleasant for children, parents and other visitors when children can enjoy themselves in your establishment. In addition, a kids' area in a public space ensures that you can have undisturbed conversations with your visitors. Whether it's at the reception desk of the city hall or while waiting at the airport. Families will feel welcome because you have provided a more pleasant atmosphere. Happy children result in happy parents.

## THE ADVANTAGES OF A KIDS' CORNER

A unique and challenging play corner ensures that your employees have more attention for your visitors. While the children play, you can give your visitors all the help they need. Because the parents know that their children are also welcome, the visit is experienced more pleasant.

**“We constantly have children playing in the kids' corner. We notice that children aren't getting bored as quickly now that they have their own play corner.”**

- Christof Kontogiannis,  
Passenger Experience manager Köln Airport
